ONTARIO

AGE
BY SEX, CONJUGAL CONDITION, ETC.

This bulletin classifies the population of Ontario and of the cities of 30,000 and over in the province, by age to show the number of males and females by conjugal condition, racial origin, religious denomination, birthplace, immigration and citizenship, official language and mother tongue, and schooling, as of the Census date, June 2, 1941. It forms part of a series of bulletins on age to be issued separately for each province as final figures become available. The data for the province are given by rural and urban areas in a number of the tables appearing in these bulletins, while additional information for cities of 30,000 population and over is shown separately.

The standard lists of racial origins, religious denominations, birthplaces, etc., which appeared in Table 1 of the "A" series of the population bulletins for the provinces are shown in the provincial tables of the present series. In addition, any of the racial origins, religious denominations, birthplaces, etc., not included in these standard lists, which are numerically important in a particular province, are shown in the tables for that province.

<u>Definition of Rural and Urban:</u> The term "urban" in the Census applies only to incorporated cities, towns and villages. The population of all unincorporated towns and villages is included in the rural population.

ONTARIO

AGE
PAR SEXE, ETAT CONJUGAL, ETC.

Ce bulletin classifie la population de l'Ontario et des cités de 30,000 et plus dans la province, selon l'âge de façon à révéler le nombre d'homnes et de femmes selon l'état conjugal, l'origine raciale, la religion, le lieu de naissance, l'immigration et la naturalisation, la langue officielle parlée et la langue maternelle et le nombre d'années d'école à la date du recensement, le 2 juin 1941. Il fait partie d'une série de bulletins portant sur l'âge et qui doivent être publiés pour chacune des provinces au fur et à mesure que seront connus les chiffres définitifs. Les données d'un certain nombre de tableaux de ces bulletins embrassent les régions rurales et les régions urbaines tandis que les renseignements supplémenteires sur les villes de 30,000 et plus sont donnés séparément.

Les listes régulières d'origines raciales, de religions, de lieux de naissance, etc., publiées dans le tableau l de la série A des bulletins sur la population pour les provinces sont données dans les tableaux provinciaux de la présente série. En outre, toute origine raciale, toute religion ou tout lieu de naissance, etc., ne figurant pas dans ces listes et qui a quelque importance dans une province en particulier, figure aux tableaux de cette province.

<u>Péfinition de rural et urbain</u>:- Le terme "urbain" pour les fins du recensement ne s'applique qu'aux cités, villes et villages incorporés. La population des villes et villages non incorporés figure avec la population rurale.
